NNOA

Nevada Narcotics Officers Association was re-established in December of 2006.

What you should know:

- This Non-Profit Organization is currently working to ensure a lifelong existence in Nevada.
- It is NNOA's goal to promote and provide excellent training to Police Officers from around Nevada, the US and international officers.
- NNOA is one of the many state recognized Narcotic Officers' Associations.
- NNOA is modeled after CNOA and other NOA's.

How we help:

- Training and education for Law Enforcement.
- The education of our community.
- Redirection of assistance offered by other individuals, organizations and agencies.

Nevada Narcotic Officers Association has a very clear mission. NNOA's mission is as follows:

- To train and educate the membership, the public, and other law enforcement officers, within the United States, as to the current drug trends, drug recognition, and how drugs affect all other areas of crime.
- To establish training for law enforcement officers in the areas of crime and drug enforcement, by the use of various training media: seminars, workshops, conferences, World Wide Web and printed publications.
- To promote and foster mutual cooperation between law enforcement officers, their agencies, private industry and the public. This will be accomplished by creating a strong network with the community, it's many resources, local and governmental agencies and membership.
- To provide information to the public and private industry in regards to the effects of crime, its impacts on the community and the abuse of narcotic and other drugs: by the use of seminars and lectures on crime topics and drug abuse within the community and/or work place.
- To review pending legislation in the area of crime, drug and narcotic laws, and recommend the changes and/or additions to legislation that are in the best interest of the public.

Other organizations offer training to law enforcement, but only NNOA delivers the best.

Education is the key to success, rather it comes from NNOA or some other source.
